RE: Two (2) Businesses to Break Ground on Projects in Stewartville, MN on Thursday, May 10, 2018

Stewartville, MN – On Thursday, May 10, 2018, two (2) Stewartville businesses plan to break ground on their new construction facilities:

1. Sprouts Childcare & Early Education Center, LLC | May 10, 10:00 a.m. | 200 Schumann Dr. NW

Sprouts Childcare & Early Education Center, LLC owners Krystal and Patrick Campbell will hold their official groundbreaking ceremony at 10 a.m. on May 10 on their property located at 200 Schumann Drive NW in Stewartville, MN.

The Campbells announced their intention to construct a new 7,800 square foot, 99-child capacity center in late 2017. The project will address the growing child care needs of the City in addition to immediately creating 15 new jobs.

“Research from last year has indicated a child care capacity deficit of at least 111 children,” said Stewartville Mayor Jimmie-John King. “This new business will help augment the existing, quality child care being offered in our community to support our residents and employers.”

The business is expected to open by fall of this year; parents can already secure enrollment for children by contacting 507-272-5268.

2. Root River Dental | May 10, 4:30 p.m. | 501 S. Main St.

Root River Dental will also be hosting their groundbreaking on May 10. Business owners Dr. Zachary Lechner, DDS and Hannah Lechner, MHA will join their team in welcoming guests at the site of their new location, 501 S. Main Street, Stewartville, MN, at 4:30 p.m.

Root River Dental has been owned and operated by Dr. Lechner since June of 2014. The practice provides a wide range of treatments for pediatric, general, implant, and cosmetic dentistry as well as new technology for digitally designed same day crowns.

This expansion of Root River Dental will allow the business to meet increasing demand, offer new services, and accommodate future growth. Dr. Lechner's planning team has worked meticulously to ensure that the needs of their patients, staff, and community are fully met with the new building design.

"The City is excited about the construction of the Root River Dental building on our Main Street," City Administrator Bill Schimmel shared. "It's evident that significant thought has gone into the design and planning of the structure, and we expect the expansion will add to the vibrancy and high-quality services that our residents enjoy." Dr. Lechner added, "This new facility will allow us to fulfil our mission 'to serve others' by offering new technology, services, and amenities to ensure an unparalleled experience."

Construction on the new Root River Dental clinic is expected to be complete by fall of 2018. Root River Dental is accepting new patients; please call 507-533-7735 to schedule.

Both groundbreaking ceremonies are open to the public.
